

6 November 2015

**Natural Latex and VARILITE Seating and Back Support Systems**

All VARILITE cushions are made from the same basic raw materials. Cushions are made from polyurethane foam surrounded by polyurethane coated polyester fabrics. VARILITE covers are sewn using polyester, nylon, and polyurethane coated polyester fabrics.

There are no Natural Latex or Latex derived materials used in any VARILITE products.

Sincerely,

A handwritten signature in black ink, appearing to read 'Philip Hitch', with a stylized flourish at the end.
